Dear Harold:

In reply to your letter of 2 November 1970, let me say that I would be quite willing to help if various factors permit, and if the opinion that I am called upon to give falls within my area of expertise. I should not like to possibly mislead you by giving an unqualified and unequivocal "yes", but I certainly would be willing to review your theories and evaluate the physical evidence. Then, if I felt I could be of substantive assistance, I would testify.

Please keep me posted. I realize that you are doing this by yourself and on a shoestring, and I admire you for your tenacity and perseverance. I only wish that I had more time to give to this entire matter.

With kind regards.

Sincerely,

Cyril
